Subject:

Clarification of News Report

Gentlemen:

We refer to the letter of the Philippine Dealing & Exchange Corp. dated 24 February 2025, addressed to San Miguel Global Power Holdings Corp. ("SMGP") regarding its inquiry on the news article published in The Philippine Star on 24 February 2025, titled "SMGP earmarks P87 billion for baseload expansion". We confirm that, as of 30 September 2024, SMGP has infused a total of PhP 87 Billion to fund the following projects: (i) 600 MW Mariveles Coal-fired Circulating Fluidized Bed Power Plant, (ii) 2 x 350 MW Masinloc Coal-fired Super-Critical Power Plant (Units 4 and 5), and the (iii) 1,320 MW Batangas Liquified Natural Gas Combined Cycle Power Plant.

We wish to clarify however, that the dependable capacity of Unit 1 of the Masinloc Coal-Fired Power Plant has been increased to 344 MW (from 315 MW) after the completion of the retrofitting works in 2023.

Thank you.

Very truly yours,

SAN MIGUEL GLOBAL POWER HOLDINGS CORP.

Re:

Inquiry Regarding Accuracy of News Article

Ladies and Gentlemen:

We have noted the publication of a news article in *The Philippine Star* on 24 February 2025¹, titled "SMGP earmarks P87 billion for baseload expansion". The article reported in part that:

"MANILA, Philippines — San Miguel Global Power Holdings Corp. (SMGP) of tycoon Ramon Ang has set aside at least P87.1 billion to further beef up its baseload portfolio.

SMGP, through Mariveles Power Generation Corp., recently completed its 600-megawatt (MW) coalfired power plant in the municipality of Mariveles in Bataan, with all four units now operating.

With an estimated investment of P34.4 billion, the Mariveles facility runs on a circulating fluidized bed, a steam-generating technology that burns fuels with higher efficiency and lower emissions.

Similarly, the power arm of San Miguel Corp. is further expanding its Masinloc coal-fired thermal power plant in Zambales through the development of two more units with a capacity of 350 MW each.

Both units are scheduled for completion between this year and the next, SMGP said.

"As of September 2024, overall project completion of Unit 4 and Unit 5 are 81 percent and 69 percent, respectively, with equity-backed capital expenditures of P15.8 billion," the company said.

Originally developed by National Power Corp., the first two units of the Masinloc power plant - 315 MW and 344 MW - started operating in 1998.

After acquiring the facility in 2018, SMGP constructed the third unit (335 MW), which began commercial operations in September 2020.
